Overlay Map - Parx Racing (PRX)

October 6, 2026

The Overlay Map is the complete customer-facing dashboard. Relative shading shows structural strength; Model Odds supplies the internal fair price. Chaos and Field Risk are calculated independently of COMP.

Over	Overlay	Morning-line odds exceed Model Odds. Price comparison only; not a betting recommendation.
Legend	Darker metric cells = stronger field-relative values.	VALUE = Morning Line divided by Model Odds; above 1.00x indicates a pre-race overlay.
ML	Morning-Line Alert	Morning Line implies a win probability at least 200% higher than the model (3x the model probability), regardless of horse metrics.
WPH	WP-HIDDEN	Alpha Signal finds strong WP evidence concealed by weaker apparent speed, with independent supporting evidence.

Strength Signature Legend		
MARKER	STRENGTH SIGNATURE	BRIEF EXPLANATION
CF	Class-and-Figure Strength	Triggers when recent BRIS average is in the field's top third, Prime Power is top two, and pre-signature Model Odds are at least 1.5 times the Morning Line.
CC	Course-and-Condition Specialization	Triggers after a top-two finish at the same track/surface/class, with at least 2 wins from 3 track starts and 2 wins from 2 distance starts.
WM	Current Winning Momentum	Triggers when the horse won each of its two most recent starts.
PRG	Same-Condition Progression	Triggers after a top-three finish at the same track/surface/class, supported by a top-third BRIS average or top-three LP.
CRI	Class-Relief Surface Improvement	Triggers when the horse won two starts back and today's claiming price is no higher than the highest claiming price in its last two starts.
BF	Balanced Finishing Support	Triggers when the CRI conditions are satisfied and LP also ranks among the field's top three.
HD	Historical Dominance	Triggers with at least 3 comparable same-track/surface/class starts and all ITM; the broader track record must have at least 4 starts, 2 wins, all ITM, and a history-support score of at least 5.

Display rule: A marker appears only when the horse satisfies the listed eligibility conditions and the corresponding signature is confirmed in the Track-IQ audit.

Parx Racing - Alpha Signal

Method: Grade evaluates signal quality, while Value Ratio evaluates price. Consider At uses Model Odds from the Track-IQ final audit as the minimum acceptable win price; a Pass reflects signal quality, not a different fair price.

Race 1 - 8.3 furlongs Dirt - Clm 7500

Purse: \$24,000 Field: 9 (7 modeled) Projected pace: Hot

Rank	Horse	M/L	Grade	Value Ratio	Consider At	Evidence	Signal
1	#2 BOYS OF SUMMER	6-1	89	1.61	3.7-1+	100	POSITIVE - RF

3	#3 FAST BOB	5-1	69	1.05	4.8-1+	89	Pass

Projected race shape (hot pace): Look for #7 ROAN BURGUNDY to seek the lead and #1 MELT WITH YOU to stay close enough to prevent an easy opening half. The front group is likely to expend energy maintaining position, giving runners who settle behind them a better chance to close the gap later. #1 MELT WITH YOU has the stronger profile for sustaining the early challenge around the turn, where the pace battle could become the decisive contest. #2 BOYS OF SUMMER can capitalize in the final furlong if the early pressure begins to tell, turning the finish into a contest between the surviving speed and the late runners.

This runner combines one of the strongest overall evidence scores in the field with a well-balanced performance profile. 3-for-20 (15%) on today's surface. 3-for-15 (20%) at today's distance. **Race-Shape Angle - Tactical Finish Fit (STRONG):** Boys Of Summer brings field-rank #2 WP (19.6%) with LP 19.5% and 5 supported finishing efforts. The projected stalking finisher position is suited to a hot pace, creating a coherent path to sit behind the pressure and finish past more exposed runners. **DRF Angle — Trainer/Context:** Routes: 15% wins from 168 starters; ROI +0.26. **Elevated Risk:** CV 13%.

#1 MELT WITH YOU - 2.5-1 M/L - POSITIVE - RACE-FIT STRONG: Latent Strength Convergence - Likely Favorite

Complete Profile. This runner combines one of the strongest overall evidence scores in the field with a well-balanced performance profile. Recent BRIS average 78 ranks 2 of 7 and sits near the high end of this field's recent-speed range. 7-for-27 (26%) on today's surface. **Race-Shape Angle - Latent Strength Convergence (STRONG):** Melt With You pairs field-rank #1 WP (23.2%) with CF, CRI strength-signature support and 9 supported finishing efforts. **DRF Angle — Back-Class / Historical Suitability:** major class/purse relief, back-class / historical surface ability; Routes: 23% wins from 173 starters; ROI -0.20.

#7 ROAN BURGUNDY - 4-1 M/L - Pass - RACE-FIT STRONG: Uncontested Early-Speed Dominance - at 5-1+

Rebound Profile. Recent form is below this runner's established level, but strong historical winning evidence and an independent supporting factor make a rebound plausible. 9-for-42 (21%) on today's surface. 5-for-16 (31%) at today's distance. **Race-Shape Angle - Uncontested Early-Speed Dominance (STRONG):** Roan Burgundy owns 72.1% E1 versus 17.8% for the nearest rival, a 54.3-point advantage. The field contains no comparable first-call probability, so apparent pace pressure may be nominal rather than functional; 10 supported finishing efforts add repeatability. CV 7.8% indicates low uncertainty. The winning path is to clear, control without an expensive duel, conserve energy and carry that advantage through the wire. **DRF Angle — Back-Class / Historical Suitability:** major class/purse relief, back-class / historical surface ability. Finishing Risk: prior DRF running lines show a recurring failure-to-sustain pattern in 2 separate starts (gave way, weakened). Other races may show successful late efforts, so this is an intermittent finishing-risk warning rather than a claim that the horse always quits. **Key Risk:** recent speed figures are declining.

Race 2 - 6.5 furlongs Dirt - Clm 7500b

3	#6 PASTERO	5-1	79	0.93	5.4-1+	87	C - Watch

Projected race shape (honest pace): EXTREME FIELD RISK: The projected order is uncertain. Look for #5 VIX to seek the lead and #4 CHANGE YOUR NAME to stay close enough to prevent an easy opening half. An honest tempo should allow the stalking group to remain involved without guaranteeing that the leaders will tire. The same runner can maintain the advantage approaching the stretch, so the decisive question is whether the pursuers can get close enough before the final drive. #6 PASTERO brings the late challenge, with the finish likely to depend on how much ground remains to be made up when the field straightens for home.

WP-HIDDEN: #4 CHANGE YOUR NAME

3	#1 ZAMIRZO	4-1	57	0.76	5.3-1+	63	Pass

Projected race shape (hot pace): EXTREME FIELD RISK: The projected order is uncertain. The early contest centers on #3 SPRING ST. DREAMER and #6 THE FRIDGE, with neither likely to have an uncontested lead. The front group is likely to expend energy maintaining position, giving runners who settle behind them a better chance to close the gap later. #6 THE FRIDGE has the stronger profile for sustaining the early challenge around the turn, where the pace battle could become the decisive contest. #1 ZAMIRZO can capitalize in the final furlong if the early pressure begins to tell, turning the finish into a contest between the surviving speed and the late runners. That closing threat is less secure because the finishing evidence is limited or uneven.
